## **DETAILED ACTION**

### ***Terminal Disclaimer***

The terminal disclaimer filed on 12/15/10 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of US Patent Application No. 10/584,928 has been reviewed and is accepted. The terminal disclaimer has been recorded.

### ***Allowable Subject Matter***

Claims 46-60 are allowed.

The following is an examiner's statement of reasons for allowance:

In the case of independent claims 46, 47, 50-52, 56, 57, 60 and claims dependent thereon, the reviewed prior art nowhere discloses the underlined limitations below in combination with the remaining limitations of the dependent claims, as recited in particular for independent claim 46 below as:

A communication system, comprising a first access router belonging to a first subnet, and a second access router belonging to a second subnet different from said first subnet, said first access router and said second access router being connected via an IP network, and a mobile terminal connected to said first subnet or said second subnet via radio communication,

wherein: the mobile terminal connected to said first subnet requests a link local address of a default router in said second subnet from said second access router immediately after executing a handover to said second subnet, and

acquires said link local address of said default router which is different from said second access router from said second access router (emphasis added).

In addition, the above underlined limitations are recited in similar language in remaining independent claims 47, 50-52, 56, 57 and 60.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
